Online Advising
Student Information System

UC Davis Stay Day 2015

Presenters:
Andy Richmond, Chris Loza, Megan Richmond
What is OASIS?

- A suite of tools and applications designed to aid both the student and advisors, to help decrease time to degree and improve graduation rates.

- An electronic student file which expands, integrates, and complements the official student academic record.
Who uses OASIS?

- Students

- Advisors
  - College Advisors
  - Major Advisors
  - Minor Advisors
  - Faculty Advisors

- Student Service Units
  - Health Professions Advising
  - Office of the University Registrar
  - Orientation
  - Student Academic Success Center
  - Study Abroad
  - University Extension
  - University Writing Program
  - And more...
Benefits of OASIS:

- **Integration**
  - Integrates with many campus systems including Banner, My UC Davis, Schedule Builder, etc.
  - Planned Fall release: Message Center integration to allow secure messaging for student/advisor communications

- **Secure**
  - Helps maintain security of sensitive student data. Enforces staff to be current with FERPA training.
  - Audits and tracks access of every student record. Monitors and alerts about activity that should be reviewed for potential data misuse.

- **Transparency**
  - Allows staff to see interactions students have had in other units
  - Allows both staff and students to track each step of certain processes like forms and workflow
  - Allows better visibility of official student record, allowing errors to be quickly caught and corrected before negatively impacting the student.
Benefits of OASIS (cont.):

- Unified single student record containing notes, documents, etc. for each student.
  - Allows staff working with the student in different units to collaborate and share information, reducing duplication of effort, and help in eliminating errors in advising.

- Collaboration
  - Allows sharing of information between different units working with a student.

- Uniformity and Standardization
  - Units across campus have been embracing OASIS as a way to standardize processes between differing units so that students have a more consistent experience as they interact with different entities.
What are some things that can be done in OASIS and the associated applications?

- Online submission of many undergraduate forms such as Change of Major, Readmission Application, etc.
- Online submission of Grade Changes by faculty
- GPA tools and graphing
- Academic plans and degree progress worksheets
- Advisors certifying a student’s degree progress
- Students book advising appointments with various units on campus
Demo of OASIS and associated applications

- Student File (Advisor and Student views)
- Degree Certification
- Advising Appointment System
